

AISIN

Geared up for the future

Higher Clamping Loads

Longer Durability

High Performance Clutch **TORQUE** *master*

Heavy Duty Clutches now available for **TOYOTA LAND CRUISER, HI-LUX, 4RUNNER**

Torque Master

High Performance Clutch

AISIN Torque Master
(SUV High Performance Clutches)
*Heavy duty clutch performance,
without sacrificing drivability.*

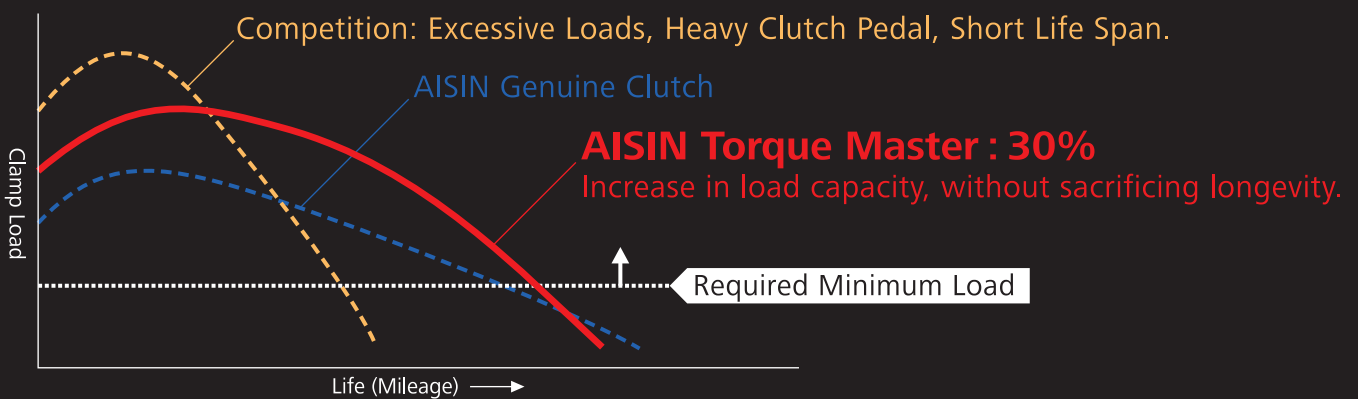

Features

- 30% Increase in Clamp Load, Increases Horsepower and Torque Capacity.
- No increase in pedal effort.
- No need for additional upgrades or modification
- No adverse effects with product life.
- Noise Vibration Reduction (NVR)

Available for popular Off-Road Vehicles such as **Land Cruiser, Hi-Lux and 4Runner.**

Advantages

Excessive clamping loads cause heavy clutch pedal feeling, shorten the life of the clutch, and may cause damages to the clutch operating mechanism.

The AISIN Torque Master combines secure torque transmission and superior endurance for optimal performance.
