AISIN’s original equipment technology and know-how is used to ensuring product quality.

**Cover Features**

- Aisin’s “Hot Seating” process stabilizes performance of the diaphragm spring.
- Diaphragm Spring Turnover (DST) type cover improves release of pressure plate.
- Higher load capacity, achieved by the latest designs enables an increase in vehicle application.

**Disc Features:**

- Premium quality, heat resistant and less abrasive facings ensures extended service life of clutch components.
- Aisin’s disc spring design enhances engagement and release performance. Floating rubber cushions or twin-hub types ensure low twisting rigidity to reduce noise, vibration and harshness.
